Reconsideration of the application in view of the following remarks is respectfully requested.

ELECTION WITH TRAVERSE

I. ELECTION OF SPECIES

The Office requires an election of one of five alleged species in the present application:

Species I wherein the surface layer is matte;

Species II wherein the surface layer is glossy;

Species III wherein the surface layer is suede;

Species IV wherein the surface layer includes upraised members; and

Species V wherein the surface layer includes inwardly depressed members.

Applicant elects Species IV, with traverse, which corresponds to claims 10, 12, and 13.

Applicant's election is not an acquiescence in the propriety of the restriction or in the accuracy in the determination and/or identification of the alleged "inventions" in the application. Applicants also request withdrawal of the Requirement to Elect Species as set forth below, as the requirement for restriction is improper.
